

Airthings Space Hub

Data collection for the Airthings for Business ecosystem

- Securely connects up to 30 Airthings sensors via long-range SmartLink technology
- Transmits encrypted data via cellular or ethernet
- Space Hub built in eSIM eliminates repetitive eSIMS in sensors, reducing installation costs
- Live streaming data uploads to Airthings cloud
- View real-time readings, building conditions, and virtual algorithms via Airthings app or Online Dashboard

Airthings Space Hub

OVERVIEW

The Space Hub is an integral part of the Airthings ecosystem which collects data from in-range sensors and provides real-time access to all the information you need to optimize air quality in your building.

PACKAGE CONTENTS

Part Number: SPACEHUB

Dimensions: 6.22 x 6.22 x 3.11 in (158 x 158 x 79 mm)

Weight: 20.2 oz (574 g)

Package includes device and accessories:

- Airthings Space Hub
- Ethernet Cable
- Mounting Bracket
- Rubber bump pads (for flat surface)
- Double-sided tape (for wall mount)
- Power supply adaptor
- US interchangeable supply blade
- EU interchangeable supply blade
- UK interchangeable supply blade
- AU interchangeable supply blade

AIRTHINGS SMARTLINK

Smartlink is the Airthings' proprietary long range and low power IoT protocol between the Hub and Airthings devices. Smartlink connectivity can typically penetrate three thick walls/floors or 10 drywalls (non-loadbearing walls). Airthings devices will always connect to the closest Hub and additional Hubs can be installed to increase coverage. The mounting bracket allows for placing the Airthings for Business Solution products on a flat surface or fixing it with double-sided tape or screws to the wall.

PRODUCT SPECIFICATIONS

Serial Number: 2820xxxxx

Dimensions: 5.12 x 5.12 x 0.98 in (130 x 130 x 25 mm)

Weight: 9.1 oz (258 g)
